1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

I'm a Customer of Duke Energy in my new home that I purchased 5 1/2 year's ago.

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

Enough IS Enough with price increases.... What is the real dire need to increase the consumer so much?. Better service is not giving or any additional benefits for the consumer other then lining the pocket's of those who already don't need it. Really!! Tell me your replacing your old power grids and/or assure me that we will receive less power serges or total power outages. I live in a new sub-division with underground power lines. Each and every time a light thunderstorm or wind come's through the area we have problems. This make's no sense at all. I already had to replace my A/C transformer and replace the food that I lost in my fridge and freezer due to power serges and total power loss. Of course at no expense to Duke!. This is totally unacceptable. Tell us/we/me how well Duke is prepared for when we do get a big storm and show us the improvements. Again Enough IS Enough.

3. Do you wish to make an appearance at a hearing in this proceeding , if scheduled, and offer sworn testimony? *
(This section should be completed.)

With my Crazy work schedule in the Airline industry, I cannot say that I will be able to attend such hearing. I am however filling out this in complete protest!...
